

CAYOOSH CREEK CAMPGROUND USE POLICIES FOR 2020

As we prepare for opening the Cayoosh Creek Campground for the 2020 Season, we are implementing the following measures to manage the risk of exposure to the coronavirus which causes COVID-19 for our Contractor, our employees and the general public:

B.C. Residents Only

At least to begin the 2020 Season, the Campground will be open for use for British Columbia residents only. Residency will be determined by provision of identification at the time of registration.

Self-Contained Campers Only

Campers must be self-contained. Tents and campers without washroom facilities will not be allowed. Power and water will be provided but washrooms will not be open for campers. Registered Campers may use the Sani-Dump facility at their own risk.

Hours of Operation

The Hours of Operation will be 8:00 AM to 10:00 PM daily. The Contractor will be on site but the office will not be open.

Gates Locked

The entrance gate will be locked at all times to properly control access to the campground. Campers must arrange times for their arrival and departure with the Contractor.

Camping by Reservation Only

Only campers who have registered and paid in advance for their visit will be permitted. Campers can register by calling 250-256-4180.

Day Use Not Permitted

Day Use of the Campground property by residents and non-residents will not be permitted to reduce the risk of transmission of the COVID-19 coronavirus.

Washrooms Closed

Campground washrooms will be closed to the public.

Tenting Sites Closed

Non-serviced camping sites will be closed.

Picnic Tables Not Provided

Picnic tables will not be provided at camping sites so campers should come prepared with their own tables and chairs.

Maximum 6 People Per Site

No more than 6 people are allowed per camping site, including children.

Sani-Dump Available

Registered campers may use the sani-dump facility. A hose bib is available for rinsing but campers must supply their own hose. The sani-dump is not cleaned after each use so campers use at their own risk.

Garbage Disposal

A garbage dumpster is located on site for the use of all campers for refuse disposal. The dumpster is not cleaned so campers use it at their own risk. Garbage cans are not provided at camp sites so campers must be prepared to dispose of refuse safely within their site.

Playground Open

The playground equipment is open for use by campers only. The playground is not sanitized regularly so campers use the equipment at their own risk. Children must be attended by an adult. Adults outside of their own family must maintain 2 metre physical distancing.

Signage

Signage will be in place to remind campers of requirements for hand hygiene and physical distancing where necessary. Signage will also be in place reminding campers where they are using facilities at their own risk.
